Student Broadcast Studio
Peripherals, Software and Apparatus

The learning environment represented by this Targeted Price Estimate includes without limitation the elements listed in this section.

Market forces dictate the availability of most of the items listed below. As a consequence, brand names and specifications will not be finalized until just before shipment. A detailed inventory list is generated at that time in the form of a receiving document. Customer's representative and a member of the installation team will complete the receiving document once installation is complete.
